PSNA

Why do you feel that you are the best candidate for this office?

I feel I am a good candidate because I have experience in both RN and LPN Education in PA. I also have over 5+ years experience working with diverse populations and feel I can advocate for not only the professional nurse but also the undergraduate student.

How do you plan on helping PSNA meet its mission to lead, advocate, educate, and connect with registered nurses across the Commonwealth?

I would love to participate not only in my local community but also at the state level to advocate for nursing.
