

## CE Reviewer Information

PSNA's Continuing Education Approval Process relies on volunteer reviewers who have experience in nursing education, clinical or academic, and work to uphold the rigorous standards of the American Nurses Credentialing Center's Commission on Accreditation.

Reviewers are oriented on how to review both individual educational activities including background on the ANCC standards as well as an example review. If so desired, reviewers can also be oriented on how to review approved provider applications.

If giving back to your profession in this meaningful way interests you, contact [education@psna.org](mailto:education@psna.org) for more information!
