Have you ever held a position in the American Nurses Association (ANA) or the Pennsylvania State Nurses Association (PSNA)? No

List any activities with other professional associations:

- Treasurer from 2018 to present at Blair Regional Nurse Practitioner Association.

Why do you feel that you are the best candidate for this office?

I have 16 years of accounting experience with managing my husband's private construction business. I manage payroll, workmen's compensation, accounts receivable/payable, and all tax deposits/filing. I have also been instrumental in back-filing tax returns, re-activating the EIN, obtaining tax-exemption status at the state and federal levels, and obtaining a permit to conduct small games of chance for the Blair Regional Nurse Practitioners Association as well as all routine treasurer duties. I feel I am familiar with the job duties of a treasurer and can perform them proficiently. I am very detail oriented.

How do you plan on helping PSNA meet its mission to lead, advocate, educate, and connect with registered nurses across the Commonwealth?

I would help the PSNA meet its mission to lead, advocate, educate, and connect with registered nurses across the Commonwealth by judiciously serving the organization with particular attention to details in order to maintain fiscal health which will enable the organization to function as they intend. I feel I maintain professionalism in all activities and am an excellent representative of the organization maintaining high standards, morals, and ethics in my personal and professional activities. I am a nurse

educator as well as a practicing nurse and make a concentrated effort to encourage my students to join their states professional organizations.
