- UPMC Northwest, RN, Emergency Department
- Clarion Hospital, RN, Medical Surgical

Please list any activities with other professional associations.

- Current Member of the Emergency Nurse Association

Why do you feel that you are the best candidate for this office?

As a current travel nurse for UPMC I have the opportunity to travel to many different hospitals and units across the state. This has given me the ability to learn about the struggles of nurses in different specialties and areas of the state. As a current MSN student I have learned the importance of advocacy and professional organizations. I believe that my experiences and education will make me a great candidate for office.

How do you plan on helping PSNA meet its mission to lead, advocate, educate, and connect with registered nurses across the Commonwealth?

I hope to be a leading voice in nurse advocacy. As a current bedside nurse I understand the importance of topics such as Standard Patient Ratios, Proper PPE, and Staff Safety. I hope to be able to not only advocate for fellow nurses but patients as well. The PSNA will give me the opportunity to have my voice

heard. I can make sure that we are given a voice so that we can care for our patients. Being a travel nurse will allow for me to better connect to fellow nurses and hear their stories.
