Please list any activities with other professional associations.

- Sigma Theta Tau
- Phi Theta Kappa

Why do you feel that you are the best candidate for this office?

Throughout my life I've enjoyed sitting on boards and councils - both in my own professional organizations and my kids' educations. I am passionate about growth of the nursing profession and safety and security of all health care providers. I enjoy public speaking and never shy away from a project, I prefer to be busy and continually learning.

How do you plan on helping PSNA meet its mission to lead, advocate, educate, and connect with registered nurses across the Commonwealth?

I have a heavy 15-yr background in promotion, marketing, photography, and public relations. I'd love to be involved in speaking out, designing materials, promoting new innovative ideas, and helping to advertise the benefits of the PSNA. I'm flexible and willing to help in whatever other ways may be beneficial.
